

# IDVIsor® Z22 COUNTERTOP ID SCANNER

FROM  **TOKENWORKS®**

## Standard IDVIsor® Z22 Countertop Features:

- Reads magnetic stripes and 2D bar codes licenses from 49 states (all but GA), Military IDs and most Canadian provinces.
- Simple operation— just scan/swipe licenses and display updates.
- Easy Setup— Simply unpack, turn on and start checking IDs.
- Intuitive alcohol and tobacco status display on color LCD.
- Fast throughput— 1-2 seconds
- Standalone— no PC, no phone line required.
- Scroll, search and delete license data on device.
- Stores last 6000 ID scans in memory— proves due diligence.
- Transaction download software and cables included. Downloads name/address info to Excel.
- PIN security protects license data on scanner.
- Simple Insert Bar Code reader - NO "aiming" or "focusing" issues, insert and remove license to read.

You know the importance and resource requirements that age verification places on your business. Now is the time to automate the process and reduce human error. The IDVIsor® IDScanner purchase price is less than the penalty you pay for an infraction for serving to a minor.

This is the ideal system for convenience stores, grocery stores, liquor stores— or any comparable retail establishment where age is a condition for purchase. It streamlines the ID verification process while complying with today's vigorous enforcement climate to safeguard your business.

It's very easy to use, just turn it on and scan or swipe a license. Displays intuitive martini glass (for alcohol) and cigarette (for tobacco) icons, over/under 21 or 18 alerts are displayed on a bright colored screen.
